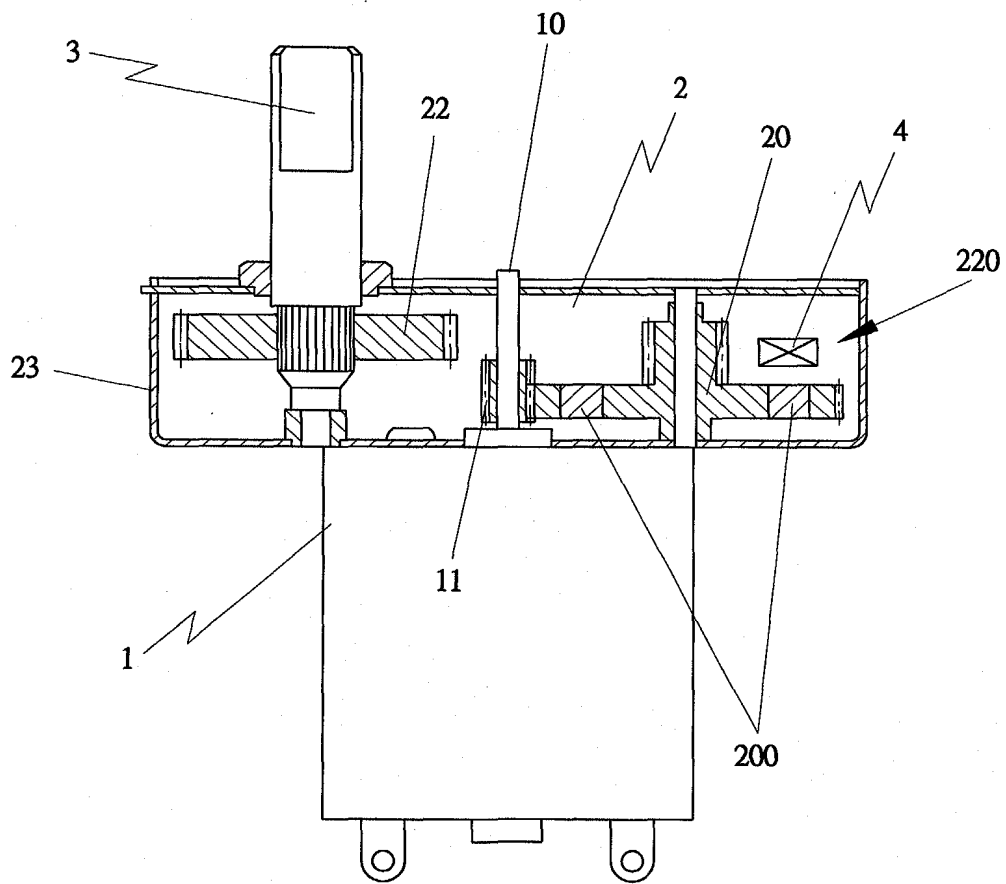

FIG 4

Figure 1 is a top-down cross-sectional view of a circular device 2. The device features a central component 4 with a rectangular block 41 and a circular element 40. Surrounding this are four circular regions 21, each containing a smaller circular element 210. A central shaft 10 is visible, with a component 11 at its base. The device is enclosed in a circular housing 20. Wires 3 exit from the top. Various other components are labeled with numbers 2, 3, 4, 10, 11, 20, 21, 210, 22, 23, 40, and 41.
